CAREER SUMMARY

Enthusiastic and self-motivated Frontend Developer with experience in developing responsive and user-friendly applications using modern technologies. I am passionate about expanding my frontend development skills and eager to contribute to projects as I continuously learn and grow in this area. As a Junior Frontend Developer, I am looking for opportunities where I can use my technical knowledge and skills to make a meaningful impact.

EXPERIENCE

SINAM LTD *Frontend Developer Internship* 04/2024 - 10/2024

- Developing responsive and user-friendly web interfaces using Material UI, TypeScript, and React
- Integrating APIs and providing communication between front-end and back-end services to retrieve data and display it in the UI.
- Implementing design mockups and wireframes provided by the design team.
- Collaborate with other developers to update the website and create new features.

INDOLIKE *Frontend Developer Internship remote* 04/2025 - present

- Building interactive and scalable front-end features using React and Ant UI.
- Applying UI/UX principles to enhance usability and accessibility in front-end interfaces.
- Ensuring a consistent user experience across various screen sizes through responsive design techniques..

PERSONAL PROJECTS

RMstore [Web link](#) [Code link](#)

RMstore is an e-commerce web application built using **React** and **Vite**, featuring state management with **Redux**, UI components from **Material UI**, and styling with **Tailwind CSS**. The project also integrates Email.js for email services.

XYZ Website [Web link](#) [Code Link](#)

This is a **React** & **Tailwind CSS** project built to showcase a **modern, responsive**, and visually appealing web interface. The website demonstrates a clean design with optimized styling using Tailwind CSS for efficient and maintainable code.

CRM user information [Web link](#) [Code link](#)

This is a **React** + **TypeScript**-based Customer Management Application that allows users to manage customer information efficiently. The application features a **user-friendly** and **responsive** interface built with **Ant Design** for adding, viewing, and deleting customer records. It includes input validation, type safety, and feedback mechanisms to ensure data integrity and enhance the user experience across different devices.
